Downloading eBooks onto an Android device

Actions before downloading an ebook from dawsonera:

Register for an Adobe ID via www.adobe.com or have an existing Adobe ID

Download the Bluefire Reader app from the Google Play Store and authorise with your Adobe ID.

Download and install the Adobe Reader app from the Google Play Store or have an existing version of Adobe Reader on the device. Set as preferred PDF reading app.

eBooks from dawsonera are available to download in either EPUB or PDF format

The download window will show "Get Adobe Digital Editions" in the bottom left-hand corner if the ebook is an ePUB file or "Get Adobe Reader" if the ebook is a PDF format. Each format has separate access requirements outlined below:

Downloading an ebook on dawsonera from an Android device

1. To download an eBook, log into dawsonera on the Android device, search for the required title and click the download icon

2. Choose the length of the download from the drop down menu and click download (see fig.1)

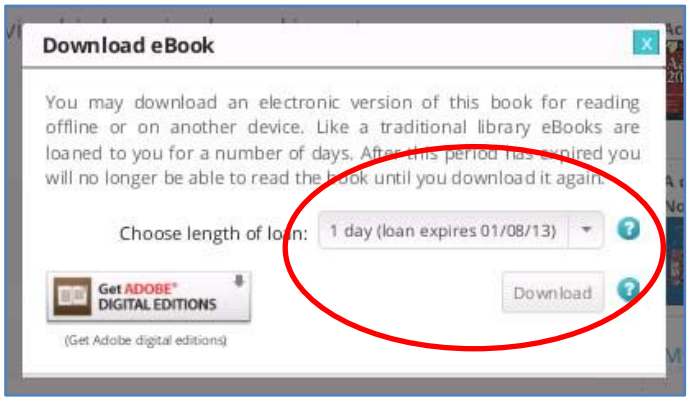

Figure 1

3. A notification pop-up will appear confirming the length of availability of the title once downloaded. (see fig.2)

Figure 2

The following actions are dependent on the format of the ebook you are downloading, for EPUB format follow steps 4 and 5, for PDF format follow steps 6 and 7

EPUB format

4. If the ebook you are downloading is an EPUB format the ebook will automatically open in the bluefire reader app. Before the ebook is opened you may choose to either "Read Now" or "Go To library". (fig.3) *Access to the title will be available dependent on length of loan selected.*

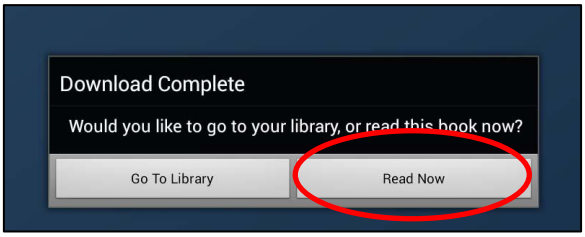

Figure 3

5. Select "Read Now" to read the ebook. (fig.3)

PDF Format

6. If the ebook you are downloading is a PDF, the title will download automatically and open in “Adobe Reader”. If “Adobe Reader” is not set as default, complete the action using “Adobe Reader” to open the ebook. (fig.4)

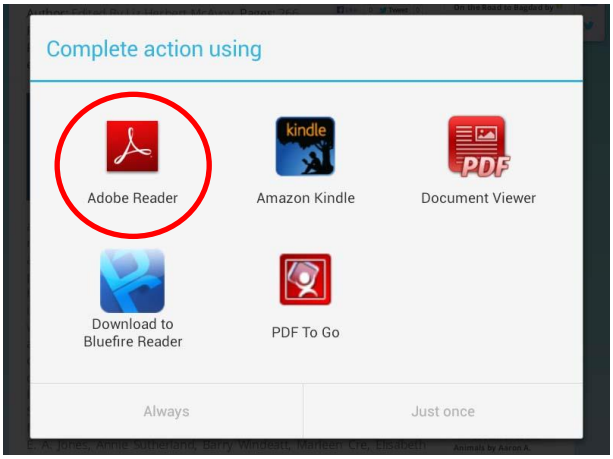

Figure 4

7. The DRM statement will appear in the Adobe Reader app, click “Open” to read the ebook. (fig.5)
