

Occupational Therapy Survey

Easy Read Questionnaire

We want to get your ideas about what is important in your life

Your ideas will help to make occupational therapy better for lots of people

The first day you can give us your ideas is the

5th August 2019

The last day you can give us your ideas is the

5th November 2019

Why do occupational therapists want to ask these questions?

Many people find it hard to do things that are important to them

They may find it hard to do things at home like:

getting up

moving around

cooking or housework

They may find it hard to do things like:

hobbies

or

work

They may find it hard to do things
outside the house like:

shopping

meeting people

getting to places on public transport

Occupational therapists help people
to do these things

People who find these things hard,
often have good ideas about how to
make things better

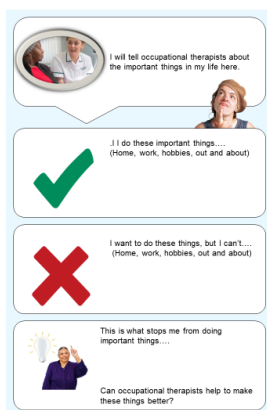

Occupational therapists want to
know:

what kind of things you do already

what things you want to do, but can't

what stops you from doing important
things

I will tell occupational therapists about the important things in my life here.

I do these important things...
(Home, work, hobbies, out and about)

I want to do these things, but I can't...
(Home, work, hobbies, out and about)

This is what stops me from doing important things...

Can occupational therapists help to make these things better?

Lots of people will give them ideas

They will make a list of things they need to find out more about (research)

Giving occupational therapists your ideas – the survey

You can choose if you want to give us your ideas

If you don't want to – that is ok!

If you say yes, we will ask a few questions to find a little bit more about you

We won't know your name, or where you live – that is private

You can choose which questions you want to answer

Before you choose, make sure you understand why occupational therapists want your ideas

You can chat with someone who helps you

or

You can phone us to ask us questions
