

Elizabeth Casson Memorial Lectures

1973-2023

The lecture was established in 1971 as a memorial to Elizabeth Casson (1881–1954) in honour of her contributions to the profession of occupational therapy. The first woman to be awarded the degree of Doctor of Medicine from the University of Bristol in 1929, Elizabeth Casson specialised in psychiatry and introduced occupational therapy to England, setting up the first school of occupational therapy, Dorset House, in Bristol.

We award the lectureship to an RCOT member whose peers consider them to have made and be making a significant contribution to the profession's development.

Lecturers

Year	Lecturer	Lecture title
